

KYALO ISAAC KIMEU

Web Developer | Algorithmic Systems & Data Analysis

ikyalokimeu@gmail.com • +254 794 886 039 • Nairobi, Kenya • github.com/MrKimeu

PROFESSIONAL SUMMARY

Results-driven software developer with a strong focus on high-frequency algorithms, data analysis, and decision-making systems. Experienced in web application development, network-adjacent software, and AI/ML model integration. Currently deepening expertise in Python and C++ with a determined focus on delivering production-grade algorithmic and data-centric solutions. Immediately available and open to remote, hybrid, or on-site opportunities.

CAREER OBJECTIVE

To leverage expertise in software development and algorithmic modeling — utilizing Python, C++, and data analysis techniques — to architect innovative, scalable systems. Committed to translating complex data trends into measurable improvements and contributing to high-performance engineering teams.

CORE SKILLS

Languages	Python (advancing), C++ (advancing), PHP, JavaScript
Frontend	HTML5, CSS3, Tailwind CSS
Databases	MySQL, T-SQL
DevOps	Docker
AI / ML	Model integration, Python ML libraries, algorithmic modeling
Interests	High-frequency algorithms, data analysis, decision-making systems

WORK EXPERIENCE

Swap Executive

Flexi Personnel | Nairobi, Kenya | August 2026

- Supported the Battery swapping process for Spiro under Flexi Personnel
- Offered help to clients when needed

Self-Employed | Nairobi, Kenya | 2021 – Present

- Designed and developed responsive web applications for diverse clients.
- Implemented geolocation, mapping, and real-time features to enhance user experiences.
- Managed full project lifecycles from requirements gathering through to deployment and client handover.

Software Developer Intern

Fluid Intelligence Networks | Thika, Kenya | May 2025 – August 2025

- Supported the delivery of high-speed internet infrastructure projects, contributing to network configuration and performance monitoring.

- Assisted in the design and development of client websites, ensuring responsive layouts and optimal user experience.
- Collaborated with senior engineers on web-based systems, gaining exposure to production environments and real-world workflows.

EDUCATION

Diploma in Computer Science

The Ol'Lessos National Polytechnic | Nandi, Kenya | 2023 – 2026 (*Expected*)

Focus: Web Technologies, AI/ML Fundamentals

Kenya Certificate of Secondary Education (KCSE)

St. Charles Lwanga Boys High School | Kenya | 2019 – 2022

Mean Grade: B–

Kenya Certificate of Primary Education (KCPE)

Divine Mercy Catholic Junior School | Kenya | 2011 – 2018

Mean Score: 392

TECHNICAL ACHIEVEMENTS

- Designed and implemented complex relational database schemas optimized for query performance and data integrity.
- Deployed containerized web applications, demonstrating proficiency in modern DevOps practices.
- Integrated AI/ML models into live applications, bridging the gap between data science and software engineering.
